PRESS RELEASE November 3, 2017

Treasury Services and Barcelona Valuta Experts join forces

Treasury Services and Barcelona Valuta Experts will join forces to better serve existing and new relationships. According to Arnoud Doornbos of Treasury Services, Barcelona Valuta Experts will focus on currency risk management within the risk management range of the company. For Rob Beemster of Barcelona Valuta Experts, this cooperation means expanding the portfolio by offering Treasury Services' products and services.

Combining many years of FX experience of Barcelona Valuta Experts with Treasury Services' innovative Treasury Tools, FX Risk Management will go to the next level. Through this cooperation an even better response will be given to the growing demand from SMEs / (Large) Corporates for professional coaching of FX risk Management.

Both parties use new technologies that provide innovative solutions. In addition, independence is paramount, giving solutions from which clients really benefit.

Treasury Services, based in Turnhout, Belgium, improves the financial efficiency of companies by implementing innovative solutions. Treasury Services offers Treasury Consultancy, Treasury Management Software, Treasury Training and Financial Engineering Solutions. Treasury Services has an international portfolio of companies, financial institutions and non-profit organizations.

Barcelona Valuta Experts BV, based in Zwaagdijk-Oost, The Netherlands, supports internationally oriented companies in foreign exchange-related matters. Barcelona currency experts give entrepreneurs more grip on currency risks, better currency results and significantly lower costs.
